

**JONES EXHAUST SYSTEMS, INC.
2ND QUARTER NEWSLETTER, 2009**

We want to thank our customers and suppliers for a great first quarter of 2009. In economic times like these, we all have to tighten our belts, both personally and in our businesses. At Jones, while it has been occasionally painful, it has been a good experience. Our team is more lean and more focused than ever, and that is a good thing!

Have you compared our flex pipe pricing to your current supplier? If not, we would encourage you to do so. Our new pricing and our quality are taking the market by storm. You owe it to yourself to compare.

Along with our new flex product, we are announcing a new line of flex with flanges welded on for specific applications. The pricing on these items is very aggressive as well. Ask your Jones salesman for details.

Wishing you a great summer!

Jones Exhaust: 100% fulfillment of orders and expectations!
